Di acuerdo cu architecto Jani Croes

Nos por a mira un diseño di hotel, engineering, landscaping di loke por bira e Bushiri Beach Hotel nobo, pa cual un decision mester cay den e dianan aki, kende lo bira e operador nobo di dicho hotel.

Relaciona cu esaki nos di Den Noticia a papia cu Jani Croes, kende ta un architecto Arubano, kende a duna di conoce cu na Aruba mes tin arquitectonan 100% capacita pa haci proyectonan di e inmensidad aki.

Lo ta interesante si Gobierno pone como exigencia den proyectonan grandi cu mester tin input di arquitectonan Arubiano. No solamente esey sino cu mester tin e reto di refleha ingrediente di nos pais di un forma creativo den e diseñonan di magnitud aki, manera hotel, hospital, etc.

E diseño aki ta un proyeccion p'e tereno di Bushiri Hotel su localidad.

Segun Jani Croes, pa motibonan desconoci lamentablemente e diseño aki no ta participando mas den e proyeccion p'e tereno aki.

Un studio profundo a ser haci pa por trece un diseño completamente Arubiano dilanti cu e nivel internacional cu un hotel di luho mester refleha. Den e diseño a usa e figuranan autentico cu ta aparece riba e casnan autenticamente Arubiano. E figuranan ta autenticamente mescos esnan original.

A tene cuenta cu e integracion di Lineal Park cu ta pasa dilanti di e hotel. E concepto di e hotel ta cu 100% di e kambernan tin 100% bista pa lama directo.

Na prome piso (groundplan) tin espacio amplio pa casino, diferente restaurant, retail stores, oficina pa hoteleria y un espacio p'e "Hotel Vakschool".

Ta un indicacion, cu definitivamente, nos isla, cu a haya su Status Aparte, 26 aña pasa, mester exigi di su partnernan igual den Reino cu esaki no por sigui asina aki mas, debi cu nos isla tur siman y den dianan di fiesta ta haya masha hopi avion nan priva for di Venezuela y tur fin di siman nos ta msha druk cu avion nan di Merca, tres biaha mas hopi cu Corsou. Esaki so ta motibo caba pa nos mes dirigi nos trafico aereo.

Corsou a elimina impuesto riba equipo electronico "Inverters" caba!

Parlamentario Donny Rasmijn a representa Parlamento di Aruba durante di e conferencia di energia alternativo "Durable Energy Conference" na pais ruman Corsou siman pasa. E conferencia tabata tin diferente oradornan di caliber cu tin hopi experencia den e ramo aki. Minister President di Corsou, Gerrit Schotte a habri e conferencia unda cu el a expresa e cambionan drastico cu e ta haciendo pa asina reduci consumo di energia na su pais y tambe introduci energia alternativo mas rapido cu ta posibel. Por ehempel, invoerrechten riba solar panel y wind turbines a wordo elimina. Dor di introduci e net metering system, e compania di utilidad ta paga 22 cent pa kwh na cada doño di cas y 24 cent pa KWh na companianan cu ta produci nan mesun oriented. E maximo cu cada cas por produci ta 10 KWh mientras pa cada compania e ta 1 MW. Tin un Wind Turbine Park di 30 MW tambe na caminda y un Waste to Energy Plant di 10 MW. En total actualmente Corsow tin 1 MW di coriente cu ta wordo produci dor di Solar Panel y tin 7 MW mas pendiente. Artefactonan electronico cu ta inverter, manera airco, microwave y frigidaire tin 0% di invoerrechten. Lusnan LED tambe no tin invoerrechten. "E accionnan aki di gobierno di Corsou ta hopi agresivo pero ta comprendibel pakiko tin asina hopi urgencia. Pais Corsou ta produciendo un parti grandi di nan energia na un manera masha constoso mes cu ta usa Diesel pa genera coriente", Rasmijn ta expresa. Actualmente nan a reduci e cantidad di plantanan di Dieselcu 22 MW. "Ta pa es motibo ey e pais por duna asina hopi insentivo pa tur hende produci energia y bende cu e compania di utilidad". Na Aruba e situacion ta otro pasobra nos no ta depende di un planta di Diesel manera esun cu Corsou pasobra nos por depende riba e plantanan na WEB cu ta funccionando na un manera eficiente. Ta pa entre otro e motibo ey nos coriente ta banda di 10 cent pa KWh mas barata cu na Corsou. Kiermen cu e gobierno di Corsou a dicidi pa tuma e reto y enbes di ta pagando un compania di afor hopi placa pa coriente, e ta paga su mesun cuidadanonan pa cada KWh cu nan produci. Durante di e conferencia Sr. Rasmijn a haya e oportunidad pa papia basta largo cu e Miister President di Corsou.

Akinan el a puntra Sr. Schotte si el a cambia ley promer cu a aplica tur e cambionan aki y el a bisa cu nan a haci un acuerdo den Ministerraad y pronto lo nan haci e cambio den un presupuesto supletorio. " Na Aruba mi persona y colega Bikker tin basta tempo ta busca un manera pa reduci e invoerrechten riba aparatonan electronico inverters. Keto bay nos no a logra pero durante di tratamento di presupuesto 2012,

Parlamento di Aruba a aproba un Mocion unanimamente pa reduci e invoerrechten riba inverters y gobierno mester reduci su gastonan eklectronico cu por lo menos 25%. "Gobierno a presupuesta 17 miyon florin e aña aki pa paga gastonan di coriente mientras cu casi tur edifico di gobierno ta pasa cu airco sendi 24 ora pa dia 7 dia pa siman. Si Gobierno cuminsa cu un regla cu tur airco y lus di oficina mester wordo paga despues di ora di trabou, e gasto di reduccion di invoerrechten lo wordo cubri completamente cu e ahoro aki", Rasmijn ta expresa. Asina nos por wak cu Gobierno di Corsou, mescos cu esun di Aruba ta den full swing cu implementacion di energia alternativo pasobra nos sa cu ya caba energia ta hopi costoso y mayan e ta hasta bira impagabel pa nos pueblonan. "Pais Corsou a elimina invoerrechten riba equiponan electronico "Inverters" caba! Y anos mester sigui mas pronto cu ta posibel", Donny Rasmijn ta termina.

Frank Francisco to have MRI on knee

PORT ST. LUCIE, Fla. -- Mets closer Frank Francisco was to have an MRI on his left knee Monday, a day after fluid was drained.

Francisco said the knee felt sore earlier in camp but it went away until Saturday, when he pitched two innings against the Miami Marlins.

"The last game I pitched, the first inning was fine, but then when I sat on the bench, resting for the next inning, I felt like my knee got cold a little bit," Francisco said. "I didn't feel like it was right."

Francisco left Toronto for a $12 million, two-year contract with the Mets. He was able to throw Monday.

"I did my workout and everything, and it felt fine, but they're going to take a look at it," Francisco said.

Center fielder Andres Torres, sidelined since March 20 because of a strained left calf, played nine innings in a minor league intrasquad game Monday and said he hopes to return to the lineup Tuesday. He was 0 for 7 with two walks and scored from first on a double.

"My legs feel good," Torres said. "I just need more at-bats. I'm kind of cold and everything, but at least my leg is good. That's the main thing that I feel good."

Josh Beckett has injured thumb

FORT MYERS, Fla. -- Boston Red Sox manager Bobby Valentine said he "totally" expects No. 2 starter Josh Beckett to make his scheduled start Saturday in Detroit, despite a right thumb injury he will be examined for in San Antonio.

"He's had a little situation that he's taking care of today -- just for peace of mind," Valentine said.

Valentine said Beckett threw 100 pitches Sunday in a controlled bullpen session and "felt great." It remains unclear how Beckett injured his thumb. Valentine said Beckett has "a little history with it," saying it's not a blister but "just a little situation."

"It's been a little hard to quite put our thumb on it," Valentine quipped. "What was really good about the last couple of times he's thrown is that he had good command.

"I feel real good today, from all reports we got after yesterday, and he said he felt really good, and I talked to the trainers and Bob (pitching coach Bob McClure) and his high school coach.

"I feel really good right now. As in all cases, you have to be prepared, and I think we are. We are covered no matter what happens."

About an hour earlier, Alfredo Aceves had said he was told to be prepared to start for Beckett on Saturday and also the home opener on April 13. Aceves had been told Sunday that he had failed in his bid to get one of the final two spots in the rotation, losing out to Felix Doubront and Daniel Bard.

"I'd rather not talk about conversations I have with players, but suffice it to say, you have to always be prepared," Valentine said.

Beckett's thumb issue comes on the heels of news that closer Andrew Bailey might miss the start of the regular season with his own right thumb injury.

"Interesting, isn't it?" Valentine said. "No thumb wrestling's allowed. We took that out of the program. The worst thing about it is, the other old adage is they happen in threes. 'Stop it, mom. Don't say it again.' That's what my mom always used to say.

"I'm not waiting (for the third one). I hope it's mine."

Valentine said this is why baseball teams never stop looking for pitching.

Andrew Bynum suffers ankle sprain

LOS ANGELES -- Los Angeles Lakers center Andrew Bynum suffered a sprained left ankle in the first quarter of the team's 120-112 win against the Golden State Warriors on Sunday and did not return.

X-rays to Bynum's ankle were negative, and the team said he had a moderate sprain. Bynum will be re-evaluated on Monday.

Bynum walked out of the arena on his own, noticeably limping, but did not need crutches and refused to ride a golf cart to his car. He said he felt fine but wouldn't comment on the severity until he was reexamined on Monday.

"I think it's OK," Lakers coach Mike Brown said of Bynum's injury. "He was able to walk out, and I just saw him as he left. ... I don't think it's going to be long-term."

Bynum injured his ankle when he came down awkwardly on the foot of teammate Josh McRoberts and was taken out of the game with 1:49 left in the first quarter for Pau Gasol. He had no points and three rebounds when he left the game.

After being suspended for the first four games of this season, Bynum has not missed any games this year due to an injury for the first time in five years. He is averaging a career-high 18.3 points and 12.1 rebounds per game and was voted to start in his first NBA All-Star Game.

"He's gotten better," said teammate Kobe Bryant. "You see him working on his footwork a lot, he has a lot of moves in his arsenal that he didn't have before. He's much more comfortable doing it and he's gained a great deal of confidence." If Bynum has to miss a few days, Bryant said the Lakers can adjust. "I don't think it's a championship formula, but we can for the time being," he said. "(Ramon) Sessions is one of those players who can carry a game offensively, he's a great scorer. And Pau can obviously do what he does."

A-Rod gives Marlins Park high marks

MIAMI -- Alex Rodriguez grew up in Miami, taking three or four city buses to the Orange Bowl on weekends with hopes of sneaking into University of Miami or Miami Dolphins football games.

The Orange Bowl is gone now.

And A-Rod is raving about what took its place.

He was in the lineup Sunday for the first game between two big-league clubs at the new $515 million Marlins Park, an exhibition between Miami and the New York Yankees. It was the fourth baseball game in the building, preceded last month by a high school game and two Marlins games against college teams.

"I don't want to be corny or cheesy because it is a spring training game and all that, but for me this is a very special day," Rodriguez said. "To be able to grow up in these streets, in these square blocks ... I never imagined, as a child, that such a beautiful stadium would be built in the middle of Miami. So I'm very proud of the city of Miami and the Marlins to be able to achieve this in my hometown.

"This is kind of like, 'Hello, Major League Baseball. We're here,' " Rodriguez said.

The Yankees and Marlins play again in the building on Monday, before the real opening comes for Miami against the reigning World Series champion St. Louis Cardinals on Wednesday night.

Playing in a fancy ballpark is old hat for the Yankees, whose new park cost $1.5 billion. In Miami, the need for a baseball-only ballpark was talked about for years. From their inception in 1993, the Marlins played in what's known today as Sun Life Stadium, the Dolphins' home park that had tens of thousands of empty seats for just about every baseball game -- plus didn't provide the baseball team with the revenue streams it said it needed to survive.

Yankees manager Joe Girardi, who managed the Marlins in 2006 when prospects of a new ballpark were especially dire, said he never doubted that Miami would eventually get its stadium.

"I think it was important for them to get their own home," Girardi said. "I think at times they were losing players that they probably would have liked to have held on to, just because they didn't have the revenue sources. So I think it's really important for the organization. And I think everyone saw what they did in free agency ... I think it's good for the organization and it's good for the community."

Girardi said he bumped into Marlins owner Jeffrey Loria -- the man who fired him -- outside the Yankees' hotel on Saturday night. "I told him I was excited to see his new home," Girardi said.
